Director of Public Works

BOARD MOTION OF MAY 24, 2011, AGENDA ITEM 13 LOS ANGELES COUNTY WATERWORKS DISTRICT NO. 29, MALIBU WATER SYSTEM MASTER PLAN UPDATE NO. 5

On May 24, 2011, your Board instructed the Department of Public Works to (1) prepare a Water System Master Plan (Master Plan) for the Los Angeles County Waterworks District No. 29, Malibu (District), to provide a comprehensive long-range capital improvement plan (CIP); (2) identify funding mechanisms to implement the CIP; (3) actively seek partnerships with the City of Malibu and other stakeholders in this endeavor; and (4) report back to your Board every 60 days following the June 14, 2011, initial report regarding the progress of the Master Plan.

Within the last two months, we have completed calibration of the hydraulic model using field fire hydrants' flow data and water system pressure data, a step that is needed to ensure the reliability of future modeling results. We also began utilizing the hydraulic model to analyze deficiencies in the system and identify projects for a capital improvement plan. A preliminary list of capital improvements will be presented at the next Malibu Master Plan Task Force meeting scheduled for May 9, 2012.

If you have any questions, please contact me or your staff may contact Adam Ariki at (626) 300-3300 or aariki@dpw.lacounty.gov.
